

## Discounted Risks

There are a number of risk categories that do not relate to Staffordshire and are therefore not included in this register. Those risks and the reasons why they have been discounted are as follows:

Serial Number	Risk reference No.	Risk category	Sub Category	Outcome	Why discounted in Staffordshire
1	H3	Accident	Fuel supply infrastructure (installations)	Fire or explosion at a fuel refinery	No oil refinery in Staffordshire or within 3km of its border.
2	H6	Accident	Offshore oil/ gas platform	Fire and explosion at offshore oil/gas installation.	No offshore installation in Staffordshire
3	H13	Hazmat	Radiation release from foreign nuclear	An overseas industrial incident whose impact reaches the South Coast of the UK	Not likely to impact on Staffordshire
4	H15	Hazmat	Maritime pollution.	Large spillage of crude oil into the sea.	No coastline in the Staffordshire area.
5	H19	Natural Hazard	Coastal flooding	Widespread and severe coastal flooding	No coastline in the Staffordshire area.
6	H61	Hazmat	Civil nuclear	Accidental off-site radiological release	No such premises in or near to Staffordshire
